Trailer - Stalwart Carry Fold 2

SKU	3010005071

Designed to maximize the transportation options for two-wheelers

Today, the bicycle is increasingly becoming an alternative to the car. M-Wave has the "Fold" luggage carrier trailer in its range to optimise the transport options for two-wheelers and combine them with the car. Despite its external dimensions of 690 x 480 x 260 mm, the highly stable steel frame of the bike trailer can be easily folded down to the size of a car trunk, making it easy to store it. When unfolded, you can load up to 40 kilograms, which are always held securely between the high steel tubes of the frame.

Features of the M-Wave Stalwart Carry Fold 2 transport trailer:

highly stable steel frame
Foldable frame, wheels with quick-release fastener
Impact protection for wheels
load capacity up to 40 kg
mounting position: hub axle
