Axle - Sr Suntour QLoc 15x110

SKU	3010002121
EAN	5608554018226

Front Suspenion Axle by Suntour, Quick Release - 15QLC32-110

Q-LOC, is a patented quick release system for thru axles. With a simple push and a slight twist of the nut, you can effortlessly remove the axle, allowing for swift and hassle-free wheel changes. But Q-LOC offers more than just speedy removal. Thanks to its innovative expander design, exchanging the axle is just as fast as extracting it. The patented mechanism smoothly passes the thru axle, securely latching into place with a reassuring click sound. This ensures both safety and speed during pressurized wheel changes, making Q-LOC2 the ideal choice for competitive racing scenarios. You can use it on our BEEQ models M500 and E900. **Click to see how to install the Q-LOC Axle**

Suspension Axle: 15 x 110mm
