Front Tire 27.5x2.6 - Schwalbe Eddy Current Super Trail

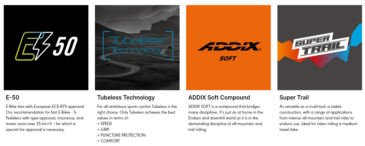

SKU	3010004494
EAN	5608554018028

Schwalbe Eddy Current Front Tire | Super Trail |

Beeq recommends the use of this front tire, as an upgrade, on the Full-Suspension/HardTail models.

THE REVOLUTION FOR E-MTB'S. Our first real E-MTB specialist for All Mountain and Enduro. It allows uncompromising riding even uphill, takes fierce acceleration as well as allowing technical riding on trails. Its solid appearance comes from the stable blocks, more rubber and big widths.

Tread design inspired by Motocross with massive, stable studs in the center and the shoulder area for reliable riding behavior.

Concise V-Grooves in the center and side blocks for direct, precise steering characteristics.

Specially adjusted design for front and rear wheel use.

FRONT:

Reliable cornering grip paired with high braking traction.

Excellent transmission of steering corrections throughlong grip edges even when less weight is on the front wheel in ascents. The result: Understeer is more controllable.

Technical Data:

Size: ETRTO 65-584 (27.5x2.60 Inch)

Type: Folding

Compound: Addix Soft

Version: Super Trail

Color: Black

Seal: TLE (Tubeless Easy)

Weight: 1200 g

Pressure: 1.5-3.0 Bar (20-45 psi)

Maximum load: 115 kg

TPI: 67

E-Bike: E-50

Product number: 11654032.01
