Dropper SeatPost - Kind Shock LEV Integra

SKU	3010002378
EAN	5608554018073

Kind Shock LEV Integra | Dropper SeatPost

Beeq recomends the use of this Dropper Seat Post, as an upgrade, in all MTB bikes.

When it comes to internally routed dropper seat posts, there's one name that stands above the rest – LEV Integra. The product by which all others are judged. It's not just a seat post; it's a category-defining legend. Superior quality seals and bushings, along with an unparalleled one-way roller bearing mechanism that is patented, guarantee long-lasting smooth performance free from any play.

The Kind Shock LEV Integra Dropper Seat Post is designed with internal cable guide, handlebar remote and integrated 2-bolt saddle clamp for all mountain and enduro use.

The remote control with an aluminium lever can be installed in any desired position on the left or right side of the handlebar and allows the rider to respond to changing terrain quicker and safer.

Remote lever included

Technical Data:
