EAN	5608554018530

Ergon BA3 E Protect (17L)

For enduro and all-mountain riding, the BA3 E Protect e-bike backpack is especially made for you. Ergon has totally reworked the carrying mechanism in addition to giving this noble bike backpack extra attention to ergonomics. The 4-way carrying mechanism allows you to precisely customise the back length to fit your body type. Sizes S through XL allow for individual adjustments to the carrying straps. Furthermore, the flexible aluminium moulded rail and load compression technique of the BA3 E Protect e-bike backpack allow it to properly fit the anatomical contours of the rider.

Crafted with the rider in mind, the BA3 E Protect features ample storage space for all your e-bike essentials. From tools to spare batteries, everything has its place within the intelligently designed compartments. Plus, with a dedicated battery compartment and hydration bladder pocket, you can stay powered up and hydrated on every adventure.

But the features don't stop there. The BA3 E Protect adjusts to your body's natural movements, thanks to its innovative shoulder angle adjustment system. Plus, with a built-in rain cover, your gear stays dry no matter the weather conditions. Upgrade your riding experience with the Ergon BA3 E Protect – where comfort, functionality, and durability meet in perfect harmony.
