TUBOLITO TUBO-CX/Gravel-All

Made for tire widths from 32mm to 50mm and ready for rim brakes and disc brakes, the Tubo-CX/Gravel-All is twice as robust as standard tubes. At the same time, due to its low weight of 60 grams, it guarantees twinkle-toed rides. The 50 % smaller packed size makes it also a spare tube which fits in every pocket. Besides 700C tires it is also ready for 650B wheels.
