

QR Axle with Trailer Mount - M-Wave

SKU

3010005069

Add the Bobike 2 in 1 trailer to your Beeq with this easy-to-install axle

If you have a Beeq M500, M700 or M850, this is the axle you'll need the axle to mount the Bobike trailer to your e-bike.

Additional internal M6 thread

For toolless mounting of bicycle trailer adapters at 12 mm thru axle hubs

Also usable without QR as solution for thru axles

Length: 176mm

Diameter: 12mm

Material: Aluminium

Colour: Black
