Rear Axle - Allen M12xP1,5 (M850 FS)

SKU	3010000616

M12x1.5x172 rear thru axle: a firm hold for your wheel

Need to replace your bike's rear axle? This M12x1.5x172 mm thru axle connects the wheel to the frame rigidly, giving you stable, predictable handling, especially in corners and at higher speeds. It has an Allen head, so you can fit and remove it with an Allen key. It is compatible with the Beeq M850 Full Suspension model.

Why you'll like it:

Rigid connection between wheel and frame
Precise fit that reduces play and unwanted movement
Simple to fit and remove with the right key
