Extra Battery Kit - Bosch PowerMore 250Wh

SKU	BEEQKIT002

Bosch PowerMore 250: more range for your e-bike

Want to ride further without worrying about your battery? The Bosch PowerMore 250 kit is an additional battery for e-bikes with the Bosch Smart System. With an extra 250 Wh, it extends your bike's range without the need to fit a large battery.

It weighs around 1.5 kg and has a cylindrical shape, about the size of a water bottle. Light and compact, it is easy to carry, for example in your backpack or pannier, and you only use it when you need it. It mounts in the holder on your frame, and you can remove it whenever you like. The kit includes the 250 mm cable that connects it to the bike.

Why you'll like it:

250 Wh of additional capacity
Compact, bottle-sized shape
Easy to fit and remove
Complete kit with holder, bottle cage and a 250 mm cable

Ideal for:

Long mountain or touring rides
Long daily commutes
Riders who want extra range without a large additional battery

Will it fit your bike?

The PowerMore 250 is compatible with Bosch Smart System e-bikes.
