Inner Tube - Continental Presta 42mm 29"

SKU	3010000279

Continental MTB 29 inner tube: the simple choice for everyday riding

Never let a flat tyre ruin your ride with the Continental MTB 29" Inner Tube (42mm Presta Valve).

Made from Continental's high-grade butyl compound, this tube strikes the right balance between elasticity and durability. It holds air pressure consistently over long periods and protects against pinch flats on rough terrain.

Ideal as a direct replacement or backup for your 29er e-bike or mountain bike, it fits seamlessly and installs in minutes.
