MAG Universal Adaptor - Quad Lock

SKU	3010005360

Quad Lock MAG Universal Adaptor

The **Quad Lock MAG Universal Adaptor** turns almost any smartphone or case into a fully Quad Lock-compatible device for your Beeq e-bike journeys.

Featuring magnetic alignment combined with Quad Lock's patented dual-stage twist-lock mechanism, mounting your phone vertically or horizontally is fast, intuitive, and secure. It attaches directly to the back of your phone or case via high-tack 3M™ VHB™ adhesive, keeping your device firmly in place even over rough city cobblestones or unpaved tracks.

Key Features:

Quad Lock Ecosystem: Enables seamless compatibility with Quad Lock mounts
Slim Profile: Just 5.3mm thin for a seamless, low-profile fit on your phone case.
Dual Protection: Strong magnetic pull for easy alignment plus Quad Lock's secure mechanical lock.
3M™ VHB™ Adhesive: High-bond adhesive suitable for smooth, flat plastic and metal surfaces.
