Phone Holder - Quad Lock Out Front Mount

SKU	3010005362

Quad Lock Out Front Mount

The **Quad Lock Out Front Mount** places your smartphone in the optimal viewing position, extended ahead of the handlebars so you can follow GPS directions, track stats, or view notifications without taking your eyes off the road.

Featuring Quad Lock's patented dual-stage lock, your phone stays strictly secured over rough city cobblestones and uneven terrain. Its low-profile, rigid design fits seamlessly onto your **Beeq e-bike** handlebar, allowing quick one-handed mounting and dismounting with a simple twist.

Key Features:

Out-Front Position: Places the phone ahead of the handlebar for effortless, safe viewing.
Dual-Stage Lock: Patented mechanical latching system guarantees total device security.
Handlebar Spacers: Includes spacers to fit 22mm, 25.4mm, and 31.8mm handlebars.
Versatile Orientation: Easily switch between portrait and landscape modes.
Action Cam Compatible: Compatible with the optional Quad Lock Action Camera/Light Adaptor.
