Phone Holder - Quad Lock Urban Stem Adapter (SUV HS)

SKU	3010005367

The **Quad Lock Urban Stem Adapter** is designed for riders seeking a sleek, low-profile, and centrally aligned smartphone mounting solution for their bicycle cockpit.

By replacing your top stem cap, it provides an ultra-clean installation that frees up space on your **Beeq e-bike** handlebars. Featuring Quad Lock's patented dual-stage locking mechanism, it holds your phone with absolute security across city streets, cobblestones, and bike paths alike.

Key Features:

Cockpit Integration: Replaces the standard top stem cap for a streamlined look on your Beeq e-bike.
Dual-Stage Lock: Patented twist-lock mechanical latching system for maximum security.
Centered Viewing Angle: Keeps your screen centered in your direct line of sight for safe navigation.
Durable Construction: Engineered with high-strength materials to withstand daily commuting.
Portrait or Landscape: Easily mount your smartphone in either vertical or horizontal mode.
