Front Light with USB-C Connection - Sigma EOX FL 150

SKU	3010004944

The EOX FL 150 front light delivers excellent illumination both day and night, featuring 150 LUX and 400 lumens with a light range of up to 100 meters. Its high-precision optics provide e-bikers, who prefer longer rides on roads and dirt tracks, with uniform and wide lighting for both close and distant visibility. This innovative front light includes an automatic daytime running light with 20 LUX, controlled by an ambient light sensor, enhancing safety and visibility during daylight hours. Additionally, a waterproof USB-C port allows for charging smartphones and other devices directly from the e-bike. The light mounts securely on the handlebars with a side clamp, ensuring a tidy cockpit and neat cable management.

Illuminance: 150 lux
Lighting range: 100m
waterproof to IPX 7
slim design
Mounted on the handlebars with side clamp
lateral visibility thanks to Light Guide on the long side
EOX® FL 150 operates in the voltage range from 12 to 16 volts with a power consumption of 12 watts
incl. reflector plate for more safety - can be mounted optionally
